ABOUT ME

A technology-driven leader with 12+ years of experience in cloud infrastructure, digital transformation, and software development. Currently serving as Senior Manager at Deloitte Canada, driving large-scale migrations, landing zone implementations, and cross-platform modernization for banking, government and enterprise clients. Recognized for building Deloitte's Oracle Cloud Infrastructure (OCI) practice and Center of Excellence (CoE) across Canada - defining governance frameworks, delivery accelerators, and certification programs. Proven track record in program management, stakeholder leadership, and cloud strategy execution, bridging the gap between business objectives and technical excellence

PROFESSIONAL EXPERIENCE

Senior Manager, Cloud Engineering, Deloitte, **Toronto**, Canada

2025 - Present

- OCI Practice Lead for Deloitte Canada — responsible for building the OCI Center of Excellence (CoE), practice accelerators, certification programs, and delivery governance frameworks
- Program Manager for British Columbia Government's Oracle Cloud Infrastructure (OCI) migration, an initiative covering cross-platform migration from Solaris to Linux for E-Business Suite (EBS), AppWorks, Data Warehouse, and 50+ applications
- Directed the design and implementation of the OCI Landing Zone, including compartment structure, IAM and security policies, network segmentation, and disaster recovery architecture
- Led the development of migration playbooks, standard operating procedures, and cutover strategies, ensuring repeatability and audit readiness across environments

Senior Consultant/Manager, Cloud Engineering, Deloitte, **Toronto**, Canada

2020- 2025

- Managed large-scale cloud migration projects, including the migration of over 4000 VMs and the closure of 12 data centers, delivering a 75% shift to the cloud for a Fortune 200 client
- Spearheaded cross-functional teams to deliver critical solutions in cloud migration and CI/CD enablement, optimizing infrastructure for complex systems like AIX, Citrix, and Oracle
- Defined and executed KPIs and SLAs to measure the success of cloud transformation projects, aligning with business objectives
- Partnered with senior leadership and engineering teams to resolve architectural deficiencies and deliver solutions on time and within budget

Associate, Cognizant Technology Solutions, **Zurich/Kolkata**, Switzerland/India

2013- 2018

- Led Agile teams in delivering \$5M+ projects in collateral management and fund management domains, achieving measurable business improvements
- Collaborated with clients to identify and solve critical business problems, resulting in the extension of a high-margin project
- Designed scalable systems for cloud migration and DevOps transformation, ensuring alignment with client needs

TECHNOLOGY SKILLS & EXPERIENCES

- **Certifications** - Microsoft Azure Fundamentals, Microsoft Certified: Azure AI Fundamentals, Oracle Cloud Infrastructure 2025 Foundations Associate, Oracle Cloud Infrastructure AI Foundations Associate, OCI Networking Professional (2025), OCI Architect Associate (2025), OCI Multicloud Architect Professional (2025)
